Level 3 Diploma in Dental Nursing - 5234

312 Provide information and support to patients on the protection of their oral health

Unit Aim:

This unit focuses on providing patients with oral health information and advice which is tailored to respond to the patient's need.

To achieve this unit you will need to complete:

- Task A Questions
- Task B Assignment
- Task C Activities
- Task D Assessor Observations

In addition to these tasks your assessor and/or observer may ask you to complete a variety of further types of evidence including; questions and answers, reflective accounts, expert witness testimonies and personal statements.

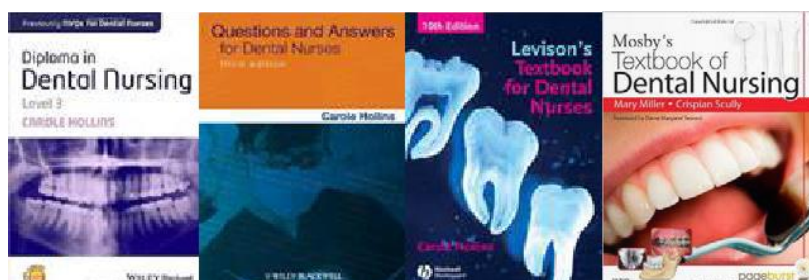

When completing these tasks please use additional pages ensuring your name, signature and questions are included on each page. Please ensure you keep copies of ALL your work.

The whole workbook along with any observations and all supporting evidence should be submitted when your assessor is satisfied that the evidence meets the requirements in full.

Please ask your assessor how to refer to criteria numbers in the standards.
